COORDINATION CHEMISTRY REVIEWS VOLUME 133, COMPLETE, JULY 1994

Contents

A Celebration of Inorganic Lives
Interview of Kazuo Yamasaki 3

Interview of Shoichiro Yamada 11

Interview of Hayami Yoneda 19

Interview of Kazuo Saito 25

Interview of Hideo Yamatera 33

Regular papers

Factors affecting stabilities of chelate, macrocyclic and macrobicyclic complexes in solution
A.E Martell (College Station, TX, USA), R.D. Hancock (Johannesburg, South Africa) and R.J. Motekaitis (College Station, TX, USA) 39

Five-coordinate alkene complexes of palladium(II) and platinum(II)
V.G. Albano (Bologna, Italy) G. Natile (Bari, Italy) and A. Panunzi (Naples, Italy) .. 67

Coordination chemistry of stibine and bismuthine ligands
N.R. Champness and W. Levason (Southampton, UK) 115

The coordination chemistry of the amidine ligand
J. Barker and M. Kilner (Durham, UK) 219

Conference calendar 301

Author index 305

Subject index 305

Some Papers to Appear in Forthcoming Issues

Structural aspects of Grignard reagents
M. Melnik (Bratislava, Slovak Republic)

Complex compounds of platinum(II) and (IV) with aminoacids, peptides and their derivatives
A. Iakovidis and N. Hadjiliadis (Ioannina, Greece)

The publisher encourages the submission of articles in electronic form thus saving time and avoiding rekeying errors. A leaflet describing our requirements is available from the publisher upon request.
